States that the medical code published in 1931 was not complete and requires to be recompiled with necessary supplementary information on the Model of the Madras Medical Code and requests that an experienced hand may be deputed for a period of about 4 months for this work.

1) Asked for orders. It is perhaps quite necessary to bring the Mysore Medical Code up to date and to embody in it information that would be useful to Sub Asst Surgeons, Asst Surgeons and others. The Senior Surgeon suggests that an experienced official who could coordinate the work of compilation & put it in a readable form be deputed for about 4 months. The Registrar G.R.S. may perhaps be requested to suggest a hand for the purpose. Mr S.S Shetty may be requested to 22.4.39 submit definite proposals in regard to the hand to be deputed to revise the Medical Code. ~~Perhaps the P. A to M.S.S might be instructed~~

To

The Secretary to the Government of Mysore,
Local Self Government Department, Bangalore.

Sir,

With reference to your letter No.G.10352/Med.dated 13th Instant regarding the revision of the Medical Code, I have the honour to state that as it is, I find that the Medical Code was not complete even up to the date of its publication viz., 1931, and that many of the relevant and standing orders did not find a place in the Code. A Medical Code should not only be a correct compilation of all standing orders and rules regarding various aspects of Medical Administration arranged in a useful manner, but may also usefully include supplementary information regarding procedure so as to be a ready guide to inexperienced Sub Assistant Surgeons and Assistant Surgeons in the moffusil enabling them to do things correctly in the matter of statistics, indents, post-mortems, correspondence, etc., This advisory information would improve their efficiency and avoid unnecessary correspondence.

For this work the assistance of an additional hand, who is not a mere clerk but one who is both experienced and capable of collecting and compiling information in a readable form is necessary. As the present Medical Code has not only become obsolete but has many glaring omissions, I would suggest that some hand who has had experience in compilation of Rules and Regulations may kindly be deputed for a period of about 4 months for bringing the Code up-to-date.

The Madras Medical Code could serve as a model on which to revise our Code.

I solicit early orders.
